POLICE AND FIRE DEPARTMENT

Pictured Left: Officer Dunn, shortly after officially completing her training, was dispatched on a call and helped deliver a healthy baby girl into the world. She remarked that this really reaffirmed why she got into this job.

Pictured right: Chief Hensley and Officer Wier, along with the Fire Department, helped teach CPR to 4th graders at Dixie. They showed true promise; we might even have some paramedics in training.

ZONING AND COMPLIANCE REMINDERS

Permits are needed for fencing, pools, sheds, and other items of construction. Contact the Village at 937-687-1341 before you start.

The Zoning and Compliance Administration is proactive and noting violations. The Village Zoning and Compliance Administrator will be enforcing these codes. Before you panic, consider how or if these laws affect you? Properties need to be maintained and kept in a condition as to not affect the value of any neighboring properties. For those who fail to upkeep their property, properly return their trash cans after pick up, park vehicles/RVs/trailers in the grass and not on a concrete or blacktop driveway or pad, and other non-compliance issues; there will be notices and fines for failing to comply. If you are notified of a zoning or compliance violation, **do not ignore it**. Reach out and ask questions at 937-687-1341 ext. 106 for any questions or concerns you may have.

VILLAGE STREET UPDATE

On the ballot in November, will be the continuing five mill street levy. As this is a renewal there is **no increase in taxes**. This levy has allowed the Village to repair and resurface streets throughout the village since it was first passed: Avon Oak Ct., part of Lawson Ave, Lufkin Dr., S. Clayton Rd. W. Gregory Ave., Yorkwood Dr., part of Laredo Ave., part of Bronwood St., Marilee Dr., Yale off Church St., N. Clayton Rd., Johnsville-Brookville Rd., Capri Pl., Gloria St., and N. Church St. The streets throughout the Village need attention—all the streets, and with the street levy, we will be able to continue to repair and resurface the streets. The continuation of this levy will allow additional streets to be repaired and resurfaced over the next five years at no additional cost to the taxpayer.

SERVICE DEPARTMENT UPDATE

Phase I and II OPWC Blosser St. Project has begun. This project included underground utilities, curb, gutter, storm sewer, and two courses of asphalt. We received the Small Government Grant for part of the cost of this project and are applying for additional Small Government Grants for future projects.
